

of balance. Economically, we struggle to keep afloat in a sea of debt. Socially, many Americans live out of balance, and we are falling behind the rest of the world in our studies. The specters of incompetence and debt loom large over us. We have indebted ourselves too deeply. Change must happen now, or the great American beacon of liberty may grow dim and fade away to darkness.

**OVERCOME LIKE AFRICAN AMERICANS.**

All hands on deck! Once we commit to weather the storm, we can be more assured of our survival. However, there is still a great deal that we need to do as a nation to overcome. Who in America has overcome more than African Americans?

According to David Barton, author of *Setting the Record Straight: American History in Black and White*: “The story of African Americans is not unlike that of God’s chosen people, the Jews. Originally prospering in their homeland, they were taken to a foreign land where for centuries they lived in slavery until God delivered them and established them in a new land. Overcoming their tragic beginnings, African Americans have triumphed and prospered - or, in the words of Joseph, whose brethren sold him into slavery: ‘You intended evil against me, but God turned it for good.’”

Before I go further, I must address the description of African-American; it’s a misnomer. In this book I generally call African-American people Blacks or Black people, which are also misnomers since the color brown would be more appropriate. What’s more, Blacks are Americans, in the long and short of it; there is no need to refer to people by skin color
